ENGINEER'S STATEMENT

This Report is prepared pursuant to Article XIID of the California State Constitution (Proposition 218) and the State of California Property and Business Improvement District Law of 1994 as augmented by Article 15 of the San Francisco Business and Tax Regulations Code.

The North of Market/Tenderloin Community Benefit District ("North of Market/Tenderloin CBD") will provide activities that are either currently not provided or are above and beyond what the City of San Francisco provides. These activities will specially benefit each individual assessable parcel in the North of Market/Tenderloin CBD. Every individual assessed parcel within the North of Market/Tenderloin CBD receives special benefit from the activities identified under Section B of this Report. Only those individual assessed parcels within the North of Market/Tenderloin CBD receive the special benefit of these proposed activities; parcels contiguous to and outside the North of Market/Tenderloin CBD and the public at large may receive a general benefit, as outlined in Section E. The cost to provide general benefits, if any, will be funded from sources other than special assessments.

The duration of the proposed North of Market/Tenderloin CBD is fifteen (15) years, commencing January 1, 2020. An estimated budget for the North of Market/Tenderloin CBD improvements and activities is set forth in Section D. Assessments will be subject to an annual increase per year not to exceed the greater of 4% or the consumer price index (CPI). Any increase will be determined by the Owners' Association. Funding for the North of Market/Tenderloin CBD improvements and activities shall be derived from a property-based assessment of each specially benefitted parcel in the North of Market/Tenderloin CBD. A detailed description of the methodology for determining the proportional special benefit each individual assessable parcel receives from the service and the assessment for each parcel is set forth in Section G.

I hereby certify to the best of my professional knowledge that each of the identified assessable parcels located within the North of Market/Tenderloin CBD will receive a special benefit over and above the benefits conferred to those parcels outside of the North of Market/Tenderloin CBD boundary and to the public at large and that no parcel's assessment will exceed the reasonable cost of the proportional special benefits conferred on that parcel.

Respectfully submitted,

Terrance E. Lowell, P.E.

SECTION A: LEGISLATIVE AND JUDICIAL REVIEW

Property and Business Improvement District Law of 1994

Streets and Highways Code Section 36600 et seq. (the "1994 Act"), as augmented by Article 15 of the San Francisco Business and Tax Regulations Code, authorizes the City to levy assessments upon the real property for the purposes of providing improvements and activities that specially benefit each individual assessed parcel in the North of Market/Tenderloin CBD. The purpose of the North of Market/Tenderloin CBD is to encourage commerce, investment, business activities and improve residential serving uses. In order to meet these goals, CBDs typically fund activities and improvements, such as, enhanced safety and cleaning and enhancing the environment. Unlike other assessment districts which fund the construction of public capital improvements or maintenance thereof, CBDs provide activities and improvements "to promote the economic revitalization and physical maintenance of the business districts of their cities in order to create jobs, attract new businesses, and prevent the erosion of the business districts." (Streets and Highways Code Section 36601(b)). The improvements and activities funded through the North of Market/Tenderloin CBD are over and above those already provided by the City within the North of Market/Tenderloin CBD's boundaries. Each of the North of Market/Tenderloin CBD activities or improvements is intended to increase building occupancy and lease rates, to encourage new business development, attract residential serving businesses and services, and improve the quality of life for its residents.

Specifically, the 1994 Act defines "Improvements" and "Activities" as follows:

"Improvement" means "the acquisition, construction, installation, or maintenance of any tangible property with an estimated useful life of five years..."¹

"Activities" means, but is not limited to, all of the following that benefit businesses or real property in the district:

- (a) Promotion of public events.*
- (b) Furnishing of music in any public place.*
- (c) Promotion of tourism within the district.*
- (d) Marketing and economic development, including retail retention and recruitment.*
- (e) Providing safety, sanitation, graffiti removal, street and sidewalk cleaning, and other municipal services supplemental to those normally provided by the municipality.*
- (f) Other services provided for the purpose of conferring special benefit upon assessed businesses and real property located in the district.²*

Article XIID of the State Constitution

In 1996, California voters approved Proposition 218, codified in part as Article XIID of the State Constitution. Among other requirements, Article XIID changes the way local agencies enact local taxes and levy assessments on real property. It states, in relevant part, that:

¹ California Streets and Highways Code, Section 36610.

² California Streets and Highways Code, Section 36606.

(a) An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits from the special benefits conferred on a parcel. Parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit.

(b) All assessments shall be supported by a detailed engineer's report prepared by a registered professional engineer certified by the State of California.³

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute "special benefit."⁴

Judicial Guidance

Since the enactment of Article XIID, the courts have rendered opinions regarding various aspects of Article XIID. Notable portions of cases that apply to assessment districts in general and this North of Market/Tenderloin CBD in particular are noted below.

*"The engineer's report describes the services to be provided by the [district]; (1) security, (2) streetscape maintenance (e.g., street sweeping, gutter cleaning, graffiti removal), and (3) marketing, promotion, and special events. They are all services over and above those already provided by the City within the boundaries of the [district]. And they are particular and distinct benefits to be provided only to the properties within the [district], not to the public at large—they 'affect the assessed property in a way that is particular and distinct from [their] effect on other parcels and that real property in general and the public at large do not share.'"*⁵

*"...separating the general from the special benefits of a public improvement project and estimating the quantity of each in relation to the other is essential if an assessment is to be limited to the special benefits."*⁶

*"...the agency must determine or approximate the percentage of the total benefit conferred by the service or improvement that will be enjoyed by the general public and deduct that percentage of the total cost of the service or improvement from the special assessment levied against the specially benefitted property owners."*⁷

³ Section 4, Article XIID of the State Constitution.

⁴ Section 2 (i), Article XIID of the State Constitution.

⁵ Dahms v. Downtown Pomona Property and Business Improvement District (2009) 174 Cal.App. 4th 708, 722.

⁶ Beutz v. County of Riverside (2010) 184 Cal. App. 4th 1516, 1532.

⁷ Golden Hill Neighborhood Association, Inc. v. City of San Diego (2011) 199 Cal.App. 4th 416, 438.

"...even minimal general benefits must be separated from special benefits and quantified so that the percentage of the cost of services and improvements representing general benefits, however slight, can be deducted from the amount of the cost assessed against specially benefitting properties."⁸

The contents of this Engineer's Report are prepared in compliance with the above noted authorizing legislation, the State Constitution and judicial opinions.

⁸ Golden Hill Neighborhood Association, Inc. v. City of San Diego (2011) 199 Cal.App. 4th 416, 439.

SECTION B: IMPROVEMENTS AND ACTIVITIES

In 2005, the City established a community benefit district for the North of Market/Tenderloin area for a fifteen-year operational term. Based on the success of the original district, property owners, stakeholders, merchants, and residents have shown support to renew and expand the District.

The North of Market/Tenderloin CBD Steering Committee collectively determined the priority for improvements and activities that the renewed and expanded North of Market/Tenderloin CBD will deliver. The primary needs as determined by the property owners are Environmental Enhancements, such as Clean and Safe programs; and Economic Enhancements, such as marketing and business support. Specifically, the North of Market/Tenderloin CBD shall provide the following activities.

Clean and Safe

Clean Program

In order to consistently deal with cleaning issues, a Clean Program will provide a multi-dimensional approach consisting of the following elements. These services are a form of special benefit because they will be provided directly to the assessed parcels. By receiving these special benefits, the parcels are expected to enjoy increased commercial activity, which directly relates to increases in lease rates and customer usage. The services may include, but are not limited to, the following:

- **Sidewalk Cleaning:** Uniformed, radio-equipped personnel sweep litter, debris and refuse from sidewalks and gutters of the North of Market/Tenderloin CBD. Paper signs and handbills that are taped or glued on property, utility boxes, poles and telephones are removed. Clean sidewalks support an increase in commerce and provides a special benefit to each individually assessed parcel in the North of Market/Tenderloin CBD.
- **Sidewalk Pressure Washing:** North of Market/Tenderloin CBD personnel may pressure wash the sidewalks. Clean sidewalks support an increase in commerce and provides a special benefit to each individually assessed parcel in the North of Market/Tenderloin CBD.
- **Trash Collection:** Collector truck personnel collect trash from sidewalks as needed. They are also dispatched to collect large bulky items illegally dumped in the North of Market/Tenderloin CBD.
- **Graffiti Removal:** Painters remove graffiti by painting, using solvent and pressure washing. The North of Market/Tenderloin CBD maintains a zero-tolerance graffiti policy. An effort is made to remove all tags within 24 hours on weekdays.
- **Landscape Maintenance:** Weeding of District tree wells and sidewalk cracks. In addition, North of Market/Tenderloin CBD personnel may provide landscape maintenance to decorative planters.

Safe Program

The Safe Program will provide community-based safety services for the individual parcels located within the North of Market/Tenderloin CBD in the form of the continuation of the existing Safe Passage, Block Safety Group and Camera Network programs as well as lead or support initiatives that promote safety for people on the sidewalks and streets of the Tenderloin. The Safe Program will not include armed security forces and will not hire private security to remove people from the sidewalks. The Safe Program will support safe initiatives that acknowledge that everyone on the sidewalks deserves to be and feel safe, and that are initiated by the community and led by the community. The Safe Program will only provide its services within the North of Market/Tenderloin CBD boundaries. Providing these services directly to the parcels within the North of Market/Tenderloin CBD boundaries is expected to result in increased commercial activity which directly relates to increased building occupancy and customer usage. A District that is perceived as unsafe deters pedestrian and commercial activity.

- **Safe Passage:** An existing program to keep the North of Market/Tenderloin CBD safe and create safe walking groups for youth and seniors will be maintained and may be expanded.
- **Block Safety Groups:** An existing program to support residents and businesses as they seek to activate the sidewalks in front of their buildings will be maintained and may be expanded.
- **Camera Network:** An existing program will be maintained and may be expanded.
- **Public Space Activation:** A program to activate public spaces in the North of Market/Tenderloin CBD may be developed.

Marketing and Economic Development

In order to communicate the changes that are taking place in the North of Market/Tenderloin CBD and to enhance the positive perception of the assessed parcels, a professionally developed marketing and communication program will be created. The program will help parcel owners in their efforts to attract tenants and support local commerce and investment and work to improve the positive perception of the North of Market/Tenderloin CBD. Decisions on where to shop, eat, work, and live are largely based on a perception of the place. These special benefits will result in increased commercial activity which directly relates to increases in lease rates and enhanced commerce.

The programs being considered include, but are not limited to, the following:

- Destination Marketing
- Branding
- Events
- Media Relations
- Website
- District Stakeholder Outreach
- Business Support

Administration

The improvements and activities are managed by a professional staff that requires centralized administrative support. Administration staff oversees the North of Market/Tenderloin CBD's services which are delivered seven days a week. Administration staff actively works on behalf of the North of Market/Tenderloin CBD parcels to ensure that City and County services and policies support the North of Market/Tenderloin CBD. Included in this item are office expenses, professional services, organizational expenses such as insurance, and the cost to conduct a yearly financial review. North of Market/Tenderloin CBD funds from Administration may be used for renewing the North of Market/Tenderloin CBD.

A well-managed North of Market/Tenderloin CBD provides necessary North of Market/Tenderloin CBD program oversight and guidance that produces higher quality and more efficient programs. Administration staff implement the programs and services of the North of Market/Tenderloin CBD. The special benefit to assessed parcels from these services is increased commercial activity, which directly relates to increased building occupancy and enhanced commerce.

Contingency/Reserve/City Fees

An operating reserve is budgeted as a contingency for any payment of delinquencies, uncollectible assessments, North of Market/Tenderloin CBD renewal efforts, and/or unforeseen budget adjustments. North of Market/Tenderloin CBD funds from Contingency/Reserve/City Fees may be used for renewing the North of Market/Tenderloin CBD.

SECTION C: BENEFITTING PARCELS

Overall Boundary

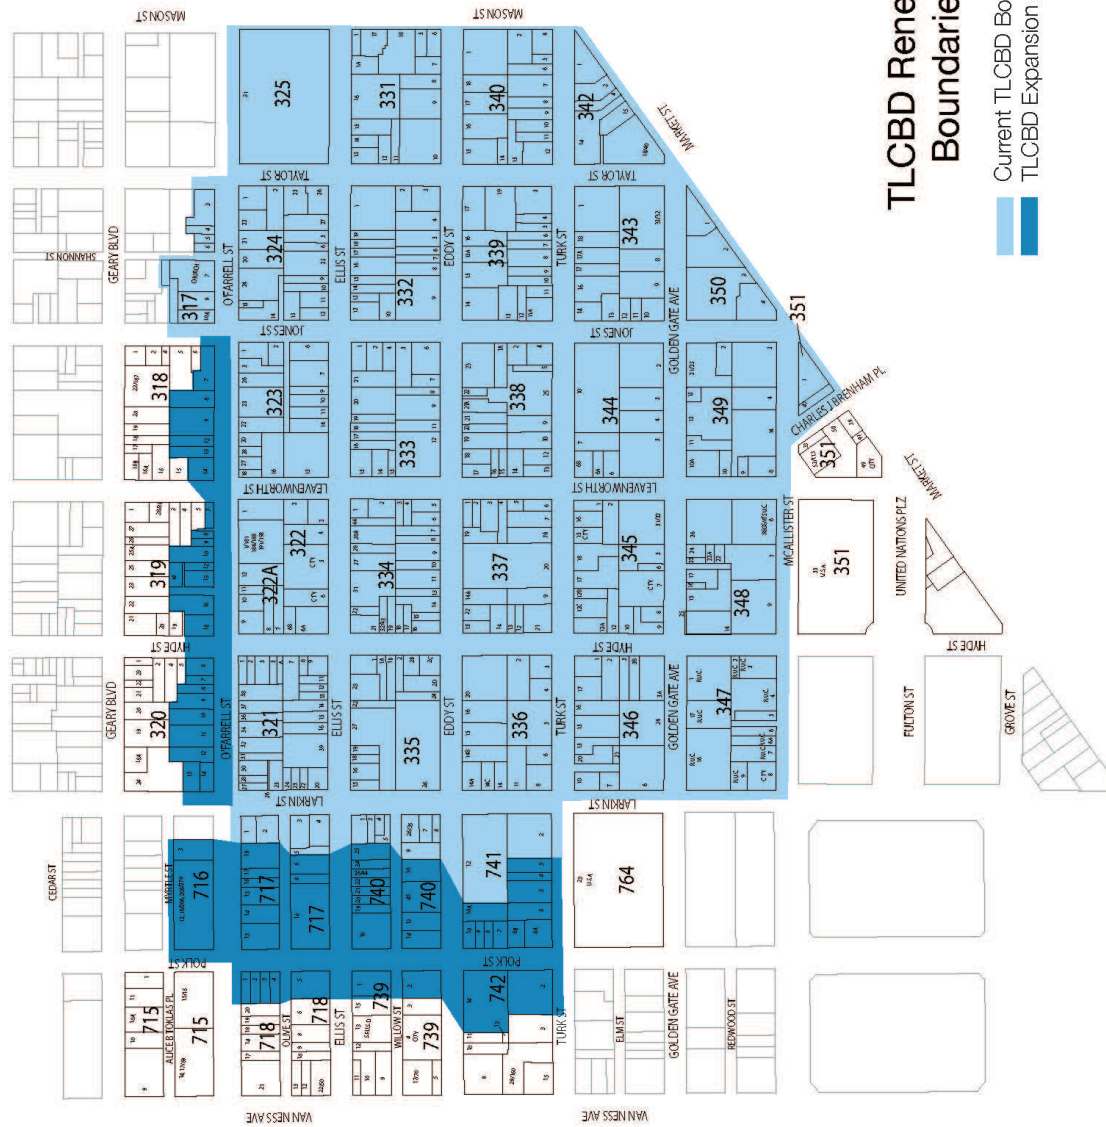

Article XIIID Section 4(a) of the State Constitution requires that the authorizing agency "Identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed."

The North of Market/Tenderloin CBD consists of approximately 41 whole or partial blocks and approximately 800 parcels. In general, the North of Market/Tenderloin CBD is bounded by Polk Street and Larkin Street on the east, O'Farrell Street on the north, Mason Street on the west, and Market Street and McAllister Street on the south. The North of Market/Tenderloin CBD abuts three existing Community Benefit Districts and one Business Improvement District; the Central Market Community Benefit District and Civic Center Community Benefit District; Lower Polk Community Benefit District, and Union Square Business Improvement District

The North of Market/Tenderloin CBD includes all parcels within the boundaries of:

- Polk Street from O'Farrell Street to Turk Street.
- Turk Street (north side only) from Polk Street to Larkin Street.
- Larkin Street (east side only) from Turk Street to McAllister Street.
- McAllister Street (north side only) from Larking Street to Leavenworth.
- Market Street (north side only) from Charles Brenham Place to Mason Street
- Mason Street (west side only) from Market Street to O'Farrell Street.
- O'Farrell Street (south side only) from Mason Street to Taylor Street.
- O'Farrell Street from Taylor Street to Larkin Street.
- O'Farrell Street from Larkin Street to Polk Street, excluding APN 0716-002.

The North of Market/Tenderloin CBD boundary is illustrated on the following page.

TLCBD Renewal Boundaries

- Current TLCBD Boundary
- TLCBD Expansion Area

SECTION D: PROPORTIONAL BENEFITS

Methodology

Article XIID Section 4(a) of the State Constitution states that "The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of the public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property related service being provided."

Determining the proportionate special benefit among the parcels of real property within the proposed assessment North of Market/Tenderloin CBD which benefit from the proposed improvements, services, and activities is the result of a five-step process:

1. Defining the proposed activities.
2. Quantifying the degree to which the activities provide general versus special benefits.
3. Determining which parcels specially benefit from the proposed activities.
4. Determining the amount of special benefit each parcel receives.
5. Determining the proportional special benefit a parcel receives in relation to the amount of special benefit all other parcels in the District receive.

Each identified parcel within the North of Market/Tenderloin CBD will be assessed based upon the special benefits received by that parcel, as determined by analyzing each parcel's unique characteristics in relationship to all other specially benefitted parcels' characteristics. As a result of this analysis, each parcel will be assessed at a rate which is commensurate with the amount of special benefits received.

Land Use Considerations

All parcels within the CBD specially benefit from the CBD activities but not to the same degree. The proportional special benefit and assessment methodology provides the following land use considerations for properties owned by non-profit organizations:

Non-Profit Parcels: Non-profit owned properties specially benefit from the CBD activities but differently than all other assessed parcels. Non-profit parcels are defined as parcels being owned by 501 c3 organizations. They will receive special benefit from the Clean and Safe activities as well as the Administration and Reserves and will be assessed fully for them. However, they do not specially benefit from the Marketing/Economic Development programs. The North of Market/Tenderloin CBD Marketing and Economic Development programs are designed to provide special benefit to the retail, residential, education, parking, publicly-owned, office, and mixed-use parcels in the form of increased customers, lease rate and commercial activity, none of which are a benefit to non-profit parcels. Thus, their assessment will not cover that portion of the costs.

Special Benefit Factors

Each parcel's proportional special benefit from the CBD activities is determined by analyzing three land use factors: Building Square Footage, Lot Square Footage, and Linear Street Frontage. These land use factors are an equitable way to identify the proportional special benefit that each of the parcels receive. Building square footage is relevant to the current use of a property and is also closely correlated to the potential pedestrian traffic from each parcel and the demand for

CBD activities. A parcel's lot square footage reflects the long-term value implications of the improvement district. A parcel's linear street frontage is relevant to the street level usage of a parcel and the demand for CBD activities. Together, these land use factors serve as the basic unit of measure to calculate how much special benefit each parcel receives in relationship to the district as a whole, which is the basis to then proportionately allocate the cost of the special benefits.

Building square footage is defined as the total building square footage as determined by the outside measurements of a building. The gross building square footage is taken from the County of San Francisco Assessor's records. Twenty five percent (25%) of the assessment budget is allocated to the building square footage, to account for the special benefit to each parcel's current use and demand for district activities.

Lot square footage is defined as the total amount of area within the boundaries of the parcel. The boundaries of a parcel are defined on the County Assessor parcel maps. Forty percent (40%) of the assessment budget is allocated lot square footage to account for the special benefit to each parcel's long-term development potential.

Linear street frontage is defined as the number of linear feet of each parcel that directly fronts a street that will receive the CBD activities. Alley front frontage is also included in this definition, if a parcel is on an alley and the alley is within the District and accessible to the public. Corner lots or whole block parcels will be assessed for the sum of all the parcels' street frontage. Thirty five percent (35%) of the assessment budget is allocated to Linear street frontage to account for the special benefit received at the street level of each parcel.

Each one of these land use factors represents the benefit units allocated to each specially benefitted parcel. The total number of benefit units in the CBD are as follows:

Land Use Factor	Benefit Units	
	All Parcels (for-profit and non-profit)	For-Profit Parcels only
Lot Sq Ft	3,242,362	2,430,071
Building Sq Ft.	12,369,615	9,068,088
Linear Street Frontage	43,794	33,769

SECTION E: SPECIAL and GENERAL BENEFITS

State Law requires that assessments be levied according to the estimated special benefit each assessed parcel receives from the activities and improvements. Article XIII D Section 4(a) of the California Constitution in part states that “only special benefits are assessable,” which requires that we separate the general benefits, if any, from the special benefits provided by the proposed activities and improvements.

As of January 1, 2015, the State Legislature amended the State Law to clarify and define both special benefit and general benefit as they relate to the improvements and activities these districts provide. Specifically, the amendment (Section 36615.5 of the Streets and Highways Code) defines special benefit as follows: “‘Special benefit’ means, for purposes of a property-based district, a particular and distinct benefit over and above general benefits conferred on real property located in a district or to the public at large. Special benefit includes incidental or collateral effects that arise from the improvements, maintenance, or activities of property-based districts even if those incidental or collateral effects benefit property or persons not assessed. Special benefit excludes general enhancement of property value.”

In addition, the amendment (Section 36609.5 of the Streets and Highways Code) defines general benefit as follows: “‘General benefit’ means, for purposes of a property-based district, any benefit that is not a ‘special benefit’ as defined in Section 36615.5.”

Furthermore, the amendment (Section 36601(h)(2)) states: “Activities undertaken for the purpose of conferring special benefits upon property to be assessed inherently produce incidental or collateral effects that benefit property or persons not assessed. Therefore, for special benefits to exist as a separate and distinct category from general benefits, the incidental or collateral effects of those special benefits are inherently part of those special benefits. The mere fact that special benefits produce incidental or collateral effects that benefit property or persons not assessed does not convert any portion of those special benefits or their incidental or collateral effects into general benefits.”

Special Benefit Analysis

All special benefits derived from the assessments outlined in this report are for property-related activities that are specifically intended for and directly benefitting each individual assessed parcel in the North of Market/Tenderloin CBD. The special benefit must affect the individual assessable parcel in a way that is particular and distinct from its effect on other parcels and that real property in general and the public at large do not share. No parcel's assessment shall be greater than its proportionate share of the costs of the special benefits received.

Streets and Highways Code Section 36601(e) states that “Property and business improvement districts formed throughout this state have conferred special benefits upon properties and businesses within their districts and have made those properties and businesses more useful by providing the following benefits: (1) Crime reduction. A study by the Rand Corporation has confirmed a 12-percent reduction in the incidence of robbery and an 8-percent reduction in the total incidence of violent crimes within the 30 districts studied. (2) Job creation. (3) Business attraction. (4) Business retention. (5) Economic growth. (6) New investments.”

The North of Market/Tenderloin CBD's goal is to fund activities and improvements to provide a cleaner, safer and more attractive and economically vibrant environment as outlined in Section B. The goal of improving the economic vitality is to improve the safety, cleanliness, appearance, and economic development of each individual specially benefitted parcel in an effort to increase commerce, to increase building occupancy and lease rates and to attract more customers, employees, tenants and investors.

Each parcel will specially benefit from:

- Cleaner sidewalks, streets and common areas
- Real and perceived public safety improvements
- Greater pedestrian traffic
- Enhanced rental incomes
- Improved business climate
- New business and investment
- Well-managed CBD programs and services

Specifically, each parcel specially benefits from the North of Market/Tenderloin CBD activities as defined below.

Clean and Safe

The enhanced cleaning and safety activities are special benefits provided directly to the assessed parcels. These activities will make the area more attractive and safer for businesses, customers, residents, and ultimately private investment. When business location decisions are made, "lower levels of public safety lead to increased uncertainty in decision making and can be perceived as a signal of a socio-institutional environment unfavorable for investment. Uncertainty affects the investment environment in general. But in particular, it increases the fear of physical damage to investment assets (or to people) or their returns... Almost universally, places with lower crime rates are perceived as more desirable".⁹ As economic investment within the district grows, the assessed parcels will benefit from increased pedestrian traffic and commercial activity.

The Clean and Safe Program activities are expected to provide special benefits to the assessed parcels in a variety of ways. For example:

- Increased security through the Safe Passage, Block Safety Groups, and Camera Network programs provide a higher level of safety to property, residents, customers, employees and visitors as they pass through the North of Market/Tenderloin CBD;
- Maintaining and cleaning sidewalks in front of each parcel creates a cohesive environment and allows pedestrians to move freely throughout the North of Market/Tenderloin CBD. Sidewalks that are dirty and unkept deter pedestrians and commercial activity. "Walkable communities offer many financial benefits, such as a reduction in healthcare costs. Homes with sidewalks tend to sell for more money and in less time than similar homes without sidewalks. Businesses also benefit as residents are more likely to shop locally when there is increased connectivity between residential and business/commercial districts. The well-maintained sidewalks, accessibility, and inviting atmosphere of downtown helps to attract tourists."¹⁰

⁹ "Accelerating economic growth and vitality through smarter public safety management" IBM Global Business Services Executive Report, September 2012, pg. 2

¹⁰ "Benefits of Sidewalks", Iowa Healthiest State Initiative, November 1, 2017

- Removing graffiti from buildings to keep the aesthetic appeal uniform throughout the North of Market/Tenderloin CBD;

Marketing and Economic Development

The marketing activities consist of services provided directly to the assessed parcels: for example, the district will promote local businesses, help property owners attract high-paying tenants through advertising and neighborhood branding efforts, and highlight the special benefits that the assessed parcels are receiving through a website and district marketing and special events. These activities will specially benefit each assessed parcel by encouraging business development and investment and increased commercial activity (e.g., filling of vacant storefronts and offices, increased lease rates for retail and office space). Decisions on where to shop, eat or attend events are largely based on a perception of the place. If these activities were not communicated it would be a deterrent to pedestrian traffic, business and commerce for the assessed parcels.

Administration

The North of Market/Tenderloin CBD requires a professional staff to properly manage programs, communicate with stakeholders and provide leadership. Each parcel will specially benefit from the North of Market/Tenderloin CBD Administration staff that will ensure that the North of Market/Tenderloin CBD services are provided and deployed as specifically laid out in this Engineer's Report and will provide leadership to represent the community with one clear voice.

Contingency/Reserve/City Fees

The North of Market/Tenderloin CBD services and activities include a contingency, reserve fund, and city fee collection fund that will allow the administration staff to allocate assessment revenues to activities that may have cost overruns or to cover unforeseen expenses. These are necessary to carry out the CBD activities that specially benefit each assessed parcel.

Special Benefit Conclusion

Based on the special benefits each assessed parcel receives from the North of Market/Tenderloin CBD activities, we conclude that each of the proposed activities provides special benefits to the real property within the North of Market/Tenderloin CBD and that each parcel's assessment is in direct relationship to and no greater than the special benefits received.

The special benefit to parcels from the proposed North of Market/Tenderloin CBD activities and improvements described in this report is the basis for allocating the proposed assessments. Each individual assessed parcel's assessment does not exceed the reasonable cost of the proportionate special benefit it receives from the North of Market/Tenderloin CBD activities.

General Benefit Analysis

As required by the State Constitution Article XIID Section 4(a), the general benefits of an assessment district must be quantified and separated out so that the cost of the activities that are attributed to general benefit are deducted from the cost assessed against each specially benefitted parcel. General benefits are benefits from the North of Market/Tenderloin CBD activities and improvements that are not special in nature, are not "particular and distinct" and are not over and above the benefits that other parcels receive. This analysis will evaluate and determine the level of general benefits that (1) parcels inside of the North of Market/Tenderloin

CBD, (2) parcels outside of the North of Market/Tenderloin CBD, and (3) the public at large may receive.

General Benefit to Parcels Inside the North of Market/Tenderloin CBD

The North of Market/Tenderloin CBD provides funds for activities and improvements that are designed for and created to be provided directly to each individually assessed parcel within the North of Market/Tenderloin CBD. Each individual assessed parcel will specially benefit from these activities, thus 100% of the benefits conferred on these parcels are distinct and special in nature and 0% of the North of Market/Tenderloin CBD activities provide a general benefit to parcels in the North of Market/Tenderloin CBD boundary.

General Benefit to Parcels Outside of the North of Market/Tenderloin CBD

All the North of Market/Tenderloin CBD activities and improvements are provided directly to each of the individual assessed parcels in the North of Market/Tenderloin CBD boundary. Each of the CBD activities is provided to the public right-of-ways (streets, sidewalks) adjacent to all specially benefitted parcels or tenants in the North of Market/Tenderloin CBD. None of the surrounding parcels will directly receive any of the North of Market/Tenderloin CBD activities. Any benefits these parcels may receive are incidental to providing special benefits to the assessed parcels, and thus any cost associated with the incidental benefits is not reduced from the cost of providing special benefit.

General Benefit to the Public At Large

In addition to general benefit analysis to the parcels outside of the North of Market/Tenderloin CBD boundary, there may be general benefits to the public at large, i.e., those people that are either in the North of Market/Tenderloin CBD boundary and not specially benefitted from the activities, or people outside of the CBD boundary that may benefit from the CBD activities.

To calculate the general benefit the public at large may receive we determine the percentage of each North of Market/Tenderloin CBD activity budget that may benefit the general public. In this case, the Marketing and Economic Development activities are tailored to benefit and promote each assessed parcel and are not intended to benefit the general public. Administration and Contingency/Reserve activities are to provide daily management of the North of Market/Tenderloin CBD solely for the benefit of the assessed parcels, and are not intended to benefit the general public. If there are any benefits to the general public, they are incidental and collateral to providing special benefits to the assessed parcels.

By contrast, the Clean and Safe activities may benefit the general public to some degree, as the general public may appreciate the enhanced level of maintenance and security as it passes through the North of Market/Tenderloin CBD. To quantify this, we first determine a general benefit factor for the Clean and Safe activities. The general benefit factor is a unit of measure that compares the special benefit that the assessed parcels receive compared to the general benefit that the general public receives. To determine the general benefit factor, we used previous districts that conducted intercept surveys in San Francisco (Union Square and West Portal) and Los Angeles (Historic Downtown, Leimert Park, Arts District, Downtown Industrial, Fashion District, and Sherman Oaks). The intent of the surveys was to determine what percentage of the general public was just passing through the district without any intent to engage in commercial activity. The surveys concluded that on average 1.4% of the respondents were within the district boundary with no intent to engage in any business activity. Here, since the North of Market/Tenderloin CBD is designed to promote a business and residential climate that

encourages development, investment, and commerce, it follows that the benefits received by these pedestrians do not translate to a special benefit to the assessed parcels. In other words, based on the results of these surveys it is reasonable to conclude that 1.4% of the benefits from the Clean and Safe activities are general in nature. However, to be conservative and to account for any variance in district type, size and services provided, we applied a 5% general public benefit factor to account for these variances. The general benefit factor is then multiplied by the North of Market/Tenderloin CBD activity's budget to determine the overall general benefit for the Clean and Safe activities. The following table illustrates this calculation.

ACTIVITY	A Budget Amount	B Relative Benefit Factor	C General Benefit Allocation (A x B)
Clean and Safe	\$1,356,618	5.00%	\$67,831

This analysis indicates that \$67,831 of the Clean and Safe budget may be attributed to general benefit to the public at large, and must be raised from sources other than special assessments.

Total General Benefits

Using the sum of the three measures of general benefit described above, we find in year one that \$67,831 (5.0% of the Clean and Safe budget, which is equal to 3.34% of the total North of Market/Tenderloin CBD budget) may be general in nature and will be funded from sources other than special assessments.

SECTION F: COST ESTIMATE

2020 Operating Budget

The North of Market/Tenderloin CBD's operating budget takes into consideration:

1. The improvements and activities needed to provide special benefits to each individual parcel within the North of Market/Tenderloin CBD boundary (Section B),
2. The parcels that specially benefit from said improvements and activities (Section C), and
3. The costs associated with the special and general benefits conferred (Section E).

EXPENDITURES	TOTAL BUDGET	% of Budget
Clean and Safe	\$1,356,618.00	66.77%
Marketing and Economic Development	\$315,950.00	15.55%
Administration	\$309,103.00	15.21%
Contingency, Reserve, City Fees	\$50,000.00	2.46%
Total Expenditures	\$2,031,671.00	100.00%
REVENUES		
Assessment Revenues	\$1,963,840.10	96.66%
Other Revenues (1)	\$67,830.90	3.34%
Total Revenues	\$2,031,671.00	100.00%

(1) Other non-assessment funding to cover the cost associated with general benefit.

Budget Notation

The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. Annual assessment increases due to inflation are not to exceed the greater of 4% or the consumer price index (CPI). Total assessment revenue may also increase based on development in the North of Market/Tenderloin CBD. The determination of annual adjustments in assessment rates will be subject to the approval of the North of Market/Tenderloin CBD Owners' Association board of directors and submitted to the City within its annual planning report.

Projected 15-Year Maximum Budgets

The following table illustrates the North of Market/Tenderloin CBD's annual assessment budget for the North of Market/Tenderloin CBD's 15-year term. As an example, projections below detail a 4% annual assessment budget adjustment every fiscal year. Actual annual increases could be above 4% if the consumer price index exceeds 4% in any given year.

Fiscal Year	Total Budget
2019/20	\$2,031,671
2020/21	\$2,112,938
2021/22	\$2,197,455
2022/23	\$2,285,354
2023/24	\$2,376,768
2024/25	\$2,471,838
2025/26	\$2,570,712
2026/27	\$2,673,540
2027/28	\$2,780,482
2028/29	\$2,891,701
2029/30	\$3,007,369
2030/31	\$3,127,664
2031/32	\$3,252,771
2032/33	\$3,382,882
2033/34	\$3,518,197

Future Development

The above table is based on the North of Market/Tenderloin CBD's current development status and does not account for possible increases to assessments due to changes to the parcel characteristics that are used to allocate special benefits (e.g., building square footage). The amount of each parcel's assessment will depend on the existing assessment rates as well as the specific characteristics of the parcel, as explained in further detail below in Section D. Each parcel will be assessed on a prorated basis from the date it receives a temporary and/or permanent certificate of occupancy. Thus, changes to a parcel may result in corresponding revisions to the assessments. Over time the total assessments levied in the North of Market/Tenderloin CBD likely will increase as parcels are developed. Parcels may also see assessments change as a result of changes in for-profit or non-profit status.

Bond Issuance

The North of Market/Tenderloin CBD will not issue bonds.

SECTION G: APPORTIONMENT METHOD

Assessment Methodology

The CBD services and activities will be provided uniformly throughout the North of Market/Tenderloin CBD. The cost of the special benefits received from these services is apportioned in direct relationship to each parcel's use, lot square footage, building square footage and linear street frontage as discussed in Section D. Each parcel is assigned a proportionate benefit unit for each lot square foot, building square foot, and linear street front foot. The sum of the total special benefit units in the CBD is then divided into the assessment budget to determine the assessment rate for each benefit unit. See example below.

Land Use Factor	Benefit Units	
	All Parcels (for-profit and non-profit)	For-Profit Parcels only
Lot Sq Ft	3,242,362	2,430,071
Building Sq Ft.	12,369,615	9,068,088
Linear Street Frontage	43,794	33,769

Calculation of Assessments

The assessment rates are determined by the following calculations:

All Parcels (for-profit and non-profit parcels) Clean & Safe, Administration, Contingency/Reserve Budget = \$1,647,890.10

Assessment budget allocated to lot square footage @ 40% = \$659,156.04

Assessment budget allocated to building square footage @ 25% = \$411,972.53

Assessment budget allocated to linear street frontage @ 35% = \$576,761.54

Lot Square Footage Assessment Rate all parcels (for-profit and non-profit parcels):

Assessment budget \$659,156.04 / 3,242,362 lot sq ft = \$0.2033

Building Square Footage Assessment Rate all parcels (for-profit and non-profit parcels):

Assessment budget \$411,972.53 / 12,369,615 building sq ft = \$0.0333

Linear Street Frontage Assessment Rate all parcels (for-profit and non-profit parcels):

Assessment budget \$576,761.54 / 43,794 street front ft = \$13.1700

For-Profit Parcels only Marketing/Economic Development Budget = \$315,950.00

Assessment budget allocated to lot square footage @ 40% = \$126,380.00

Assessment budget allocated to building square footage @ 25% = \$78,987.50

Assessment budget allocated to linear street frontage @ 35% = \$110,582.50

Lot Square Footage Assessment Rate (for-profit parcels only):

Assessment budget \$126,380.00 / 2,430,071 lot sq ft = \$0.0520

Building Square Footage Assessment Rate (for-profit parcels only):

Assessment budget \$78,987.50 / 9,068,088 building sq ft = \$0.0087

Linear Street Frontage Assessment Rate (for-profit parcels only):
 Assessment budget \$110,582.50 / 33,769 street front ft = \$3.2747

Note: The total For-Profit assessment rate consists of both of the above calculations
 (All Parcels Rate + For-Profit only Rate = Total For-Profit assessment rate).

Assessment Rates

Based on the special benefit factors and assessment methodology discussed herein, the following illustrates the first year's maximum annual assessment:

	A Clean and Safe, Administration, Contingency and Reserve (All Parcels)	B Additional Marketing/Economic Development (For- Profit Parcels only)	C Total for For- Profit Parcels only (Column A + B = C)
Lot Square Foot Rate	\$0.2033	\$0.0520	\$0.2553
Building Square Foot Rate	\$0.0333	\$0.0087	\$0.0420
Linear Street Frontage Foot Rate	\$13.1700	\$3.2747	\$16.4447

Sample Parcel Assessment

To calculate the assessment for a for-profit parcel with 5,000 square feet of lot footage, 5,000 square feet of building, and 50 linear feet of street front footage multiply the lot square footage (5,000) by the assessment rate (\$0.2553) = \$1,276.50 + multiply the building square footage (5,000) by the assessment rate (\$0.0420) = \$210 + multiply the street front footage (50) by the assessment rate (\$16.4447) \$822.24 = Initial annual parcel assessment \$2,308.74.

To calculate the assessment for a non-profit parcel with 5,000 square feet of lot footage, 5,000 square feet of building, and 50 linear feet of street front footage multiply the lot square footage (5,000) by the assessment rate (\$0.2033) = \$1,016.50 + multiply the building square footage (5,000) by the assessment rate (\$0.0333) = \$166.50 + multiply the street front footage (50) by the assessment rate (\$13.1700) \$658.50 = Initial annual parcel assessment \$1,841.50.

The assessment calculation is the same for every parcel in the CBD respective of its land use type.

Public Property Assessments

The North of Market/Tenderloin CBD will serve all parcels within its boundary, including those parcels owned by the City and County or the State of California. All publicly-owned parcels, with the exception of parcels owned by the federal government, will pay their proportional share of

costs based on the special benefits conferred to those individual parcels. Public owned parcels, such as the library and park will receive special benefit from North of Market/Tenderloin CBD services that lead to increased use which directly relates to fulfilling their public service mission. Article XIII D of the California Constitution was added in November of 1996 to provide for these assessments. It specifically states in Section 4(a) that *"Parcels within a district that are owned or used by any agency...shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit."* Below are the publicly-owned parcels that specially benefit from the North of Market/Tenderloin CBD activities.

Budget Adjustment

Any annual budget surplus will be rolled into the following year's North of Market/Tenderloin CBD budget. The budget will be set accordingly, within the constraints of the management plan to adjust for surpluses that are carried forward. North of Market/Tenderloin CBD funds may be used to fund the cost of renewing the North of Market/Tenderloin CBD. Funds from an expired North of Market/Tenderloin CBD shall be rolled over into the new North of Market/Tenderloin CBD if one is established, or returned to the property owners if one is not established, in accordance with the Streets and Highways Code section 36671. North of Market/Tenderloin CBD rollover funds may be spent on renewal.

If an error is discovered on a parcel's assessed footages, the North of Market/Tenderloin CBD may investigate and correct the assessed footages after confirming the correction with the San Francisco City and County Assessor's office. The correction will be made in accordance with the assessment methodology and may result in an increase or decrease to the parcel's assessment.

The cost of providing programs and services may vary depending on the market cost for those programs and services. Expenditures may require adjustment up or down to continue the intended level of programs and services. The Owner's Association shall have the right to reallocate up to 10% by line item of the budget allocation within the budgeted categories. Any change will be approved by the Owners' Association board of directors and submitted to the City and County of San Francisco within its annual planning report, pursuant to Section 36650 of the California Streets and Highways Code. The overall budget shall remain consistent with this Management District Plan. Each assessed parcel pays for 100% of the special benefit received based on the level of benefit received.

SECTION H: ASSESSMENT ROLL

The total assessment amount for FY 2019/2020 is \$1,963,840.10 apportioned to each individual assessed parcel, as follows.

Block Number	Block Suffix	Lot Number	Lot Suffix	Situs	Street	Property Owner	Asmt	%
0336		032		440	Turk	City and County of San Francisco	\$3,451.64	0.18%
